

Attention DPYC Ensenada Racer's Families and Friends,

We are proud to announce our 1st Annual Ensenada Wine Tour and Luncheon in the beautiful Valle de Guadalupe.

Our bus will leave the Casa Del Sol @ 10:00 on Saturday and take us to a gorgeous, state of the art winery that offers an awesome tour and a variety of wine tastings for everyone's enjoyment.

The next stop will be having lunch in a beautiful wine country setting. The menu is family style and we have already made the selections. We'll have assorted appetizers, a green salad and a variety of entrees that everyone should love!

After lunch it's off to our second winery. This upscale winery has a wide assortment of tastings as well as the ability to purchase and sample full bottles. Our tasting will start in their cellar and continue as we enjoy the rest of the winery.

The bus will cost \$20/person. The luncheon \$30/person (please note that this cost does not include wine but includes all gratuities and taxes). The restaurant has a very reasonable wine list and we are actually working on bringing our own for a small corkage fee.

There is a cost for the tastings at each winery. At the 1st winery the cost of the tasting starts around \$7/person and depending on your taste, premium tastings are available. While a little higher in price they are still a very good value.

The 2nd winery is more upscale and while the tastings are a little more expensive they are still a value. As previously mentioned we can order full bottles of any wine that we want to sample and share the cost of the bottle. This is a pretty inexpensive way to go!

We will be returning to the Hotel around 5:00. This gives us plenty of time to freshen up and celebrate with our racers!

This invite is open to everyone taking the bus down on Friday, as well as, any members that will be at the Casa Del Sol Saturday morning.

Please note we need to guarantee our reservations; therefore, we need to have your reservation no later than 4/24.

To confirm you reservation please send an e-mail to:
